ABOUT

I'm a sound recordist, mixer, and designer with over 11 years' of experience, based in Bath/Bristol but regularly working on projects across the UK and remotely. Throughout my career, I've worked on commercials, television, film, podcasts, and branded content. I offer a complete service — from on-location recording through to post-production, including audio repair and sound design. I have my own camper van and car, and have travelled to more than ten countries with my sound kit, so I'm always happy to travel or stay overnight. I also have bases in Surrey and Devon.

Previous clients include Aardman, Apple, BBC, NHS, Financial Times, Environment Agency, Google, Nike, JP Morgan, Truespeed, Open University, Umea University, Black Dog Films, Samaritans, and Network Rail.
